

The decision by
Sinclair
Broadcasting to
preempt regular
programming for an
anti-Kerry message
just before election
is an example of the
way in which our
media has become the
voice for large
powerful
corporations rather
than the voice of
the people who own
the airways. If
democracy is to
survive, we need an
impartial media
which will keep us
informed. To show
Fahrenheit 911 would
be equally unfair.
Please do not allow
this decision by
Sinclair to stand.
